UP2, THE INTEGRATED AND CONNECTED SOLAR STREETLIGHT

UP2 is the most reliable all-in-one solar lighting product. Plug and play installation, unrivalled performances and connected services makes it the best solution on the market. It comes with an inhouse developed monitoring solution: the SunnAPP.

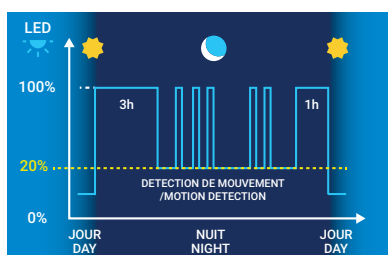

SUNNAPP™, your mobile companion

-  Installation and commissioning support
-  Lighting profiles management
-  Data log and performances monitoring
-  Registration and mapping of installed devices

INNOVATIVE LIGHTING PROGRAM

Our lighting programs are optimised depending on daily solar radiations. Motion sensor is optional.

SUNNA CLOUD: REMOTE MANAGEMENT

Our web-based management platform allows you to visualize the collected data and the location of your products.

SPECIFICATIONS

LIGHTING

Efficiency	164 lm/W
Color temperature	3000K, 4000K & 5700K
Lifespan	100 000 hours
Max power	Up to 40W*
Nominal power	20W
Motion sensor	Optional

*autonomy will depend on lighting power

BATTERY

Technology	NiMH high temperature Nickel Metal Hydride
Voltage	24V
Autonomy	2 days at nominal power
Lifespan	12 years

SOLAR PANELS

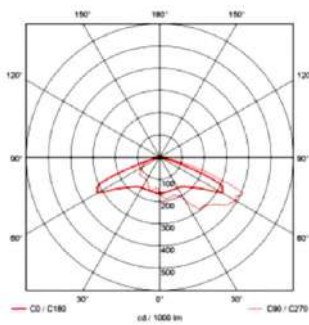

Technology	Mono-crystalline photovoltaic panels
Power	80 Wp (2 x 40Wp)
Lifespan	25 years

LIGHTING

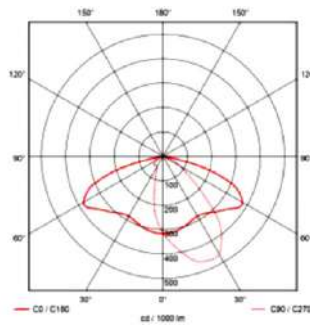

Dimensions	820 x 755 x 105 mm
Mounting	Top or side mounting, Ø60 mm
Weight	23 kg (without pole)
Protection	IP65
Working temperature	-40°C to +70°C
Connectivity	Bluetooth
Remote monitoring	Optional
